emerging in the software industry.

## ~~A Survey Of Agile Development Methodologies~~

We used a survey strategy, which enables data gathering from a larger sample of organizations, to learn about the factors driving the adoption and use of agile practices, and their benefits and challenges as perceived by early adopters of this software development methodology. Our survey reveals that personal interest is the driving force behind agile adoption, and conversely, organizational resistance and managerial apathy are key inhibitors.

A recent survey of development and IT professionals\* shows that agile is now the norm. The majority of development teams and projects now embrace the methodology, while pure waterfall approaches are in the minority. The study consisted of an online survey of 601 software developers and IT professionals. Agile software development entered the scene more than 15 years ago as a reaction to traditional
