Amazon.com: AKG-D660-S- | Hypercardioid Dynamic Microphone -
 Answer- The D660s, a close relative of the D770, is a perfectly good dynamic cardioid mic. It is good for anything you would use a Shure SM58 on. In other words, it is a stage mic intended for vocals. In the studio, it would be a good choice for snare drum or a cranked up guitar amp.

The idea that with the decline of the Roman Empire Europe entered into some immense 'dark age' has long been viewed as inadequate by many historians. How could a world still so profoundly shaped by Rome and which encompassed such remarkable societies as the Byzantine, Carolingian and Ottonian empires, be anything other than central to the development of European history? How could a world of so many peoples, whether expanding, moving or stable, of Goths, Franks, Vandals, Byzantines, Arabs, Anglo-Saxons, Vikings, whose genetic and linguistic inheritors we all are, not lie at the heart of how we understand ourselves? The Inheritance of Rome is a work of remarkable scope and ambition. Drawing on a wealth of new material, it is a book which will transform its many readers' ideas about the crucible in which Europe would in the end be created. From the collapse of the Roman imperial system to the establishment of the new European dynastic states, perhaps this book's most striking achievement is to make sense of an immensely long period of time, experienced by many generations of Europeans, and which, while it certainly included catastrophic invasions and turbulence, also contained long periods of continuity and achievement. From Ireland to Constantinople, from the Baltic to the Mediterranean, this is a genuinely Europe-wide history of a new kind, with something surprising or arresting on every page.

By combining stunning cartography with engaging and authoritative text, The World Atlas of Pirates presents the story of piracy in a completely new way. Eighty maps plot the routes that pirates followed-whether crossing the world's great oceans or pursuing their prey through creeks and bays. Colorful archive illustrations, including photographs and images from England's National Maritime Museum and other historic collections, bring the villains, their ships, and their victims to life. Lively, accessible text by pirate expert Angus Konstam explains how piracy grew and flourished from the early buccaners to the rogues of popular legends, how it has been snuffed out, and how it has reared its head again with the machine-gun-toting pirates operating on today's high seas.

This book traces the origins, history, and memory of the Jalayirid dynasty, a family that succeeded the Mongol Ilkhans in Iran and Iraq in the 14th and early 15th centuries. The story of how the Jalayirids came to power is illustrative of the political dynamics that shaped much of the Mongol and post-Mongol period in the Middle East. The Jalayirid sultans sought to preserve the social and political order of the Ilkhanate, while claiming that they were the rightful heirs to the rulership of that order. Central to the Jalayirids' claims to the legacy of the Ilkhanate was their attempt to control the Ilkhanid heartland of Azarbayjan and its major city, Tabriz. Control of Azarbayjan meant control of a network of long-distance trade between China and the Latin West, which continued to be a source of economic prosperity through the 8th/14th century. Azarbayjan also represented the center of Ilkhanid court life, whether in the migration of the mobile court-camp of the ruler, or in the complexes of palatial, religious and civic buildings constructed around the city of Tabriz by members of the Ilkhanid royal family, as well as by members of the military and administrative elite.

This is a 3000 year history of one of Europe's most fascinating and important peoples. Situated on the south-east coast of the Black Sea, Armenia has been a pivotal point between the forces of the east and of the west over most of its long history. That history has thus been very largely one of conquest by rival empires. In the classical period Armenia was conquered successively by the Persians, Seleucids and the Greeks (under Alexander). The flourishing of an independent and powerful Armenian society in the last three centuries before Christ was dissipated by successive invasions of Romans, Parthians and Persians. The conversion of Armenia to Christianity in AD 301 was the prelude to conquests first by Byzantium and then by the Arabs. The dissipation of Armenian culture continued through many centuries of subjugation under the Ottoman Empire and more recently as part of the Soviet Empire. Perhaps not surprisingly emigration from their troubled homeland has been a popular option among Armenians for at least the last 1,500 years. Armenian culture, as the author shows, has survived in enclaves throughout Europe, the Middle East and the United States. The book closes with a consideration of Armenia's first experience of independence after a gap of 1000 years. Redgate's vivid, analytical narrative is illustrated with numerous photographs and maps.

The rich and diverse architectural traditions of the Eastern Mediterranean and adjacent regions are the subject of this book. Representing the visual residues of a "forgotten" Middle Ages, the social and cultural developments of the Byzantine Empire, the Caucasus, the Balkans, Russia, and the Middle East parallel the more familiar architecture of Western Europe. The book offers an expansive view of the architectural developments of the Byzantine Empire and areas under its cultural influence, as well as the intellectual currents that lie behind their creation. The book alternates chapters that address chronological or regionally-based developments with thematic studies that focus on the larger cultural concerns, as they are expressed in architectural form.

A celebration of the work of the late Academy Award-nominated author and screenwriter collects her writings on topics ranging from journalism and feminism to food and aging, in a volume complemented by her notorious Wellesley commencement address and her recent blogs about death.

Zia Floyd remembers a time when her legs still worked before her spine was shattered during a beating. She remembers a time when she had more hope about escaping her prison and finding home--whatever that is. She remembers not feeling this helpless. What Zia can't remember is who she is, or why the mere flash of lightning sends her into a panic. So when heroes emerge from the shadows in desperate attempts to bring their comrade home, Zia's at a loss as to who they are. But they promise a better life; a life Zia once knew...a life without fear.

At its height, the Carolingian empire spanned a million square kilometres of western Europe - from the English Channel to central Italy and northern Spain, and from the Atlantic to the fringes of modern Hungary, Poland and the Czech Republic. As the largest political unit for centuries, the empire dominated the region and left an enduring legacy for European culture. This comprehensive survey traces this great empire's history, from its origins around 700, with the rise to dominance of the Carolingian dynasty, through its expansion by ruthless military conquest and political manoeuvring in the eighth century, to the struggle to hold the empire together in the ninth. It places the complex political narrative in context, giving equal consideration to vital themes such as beliefs, peasant society, aristocratic culture and the economy. Accessibly written and authoritative, this book offers distinctive perspectives on a formative period in European history.

Unholy creations from the world's greatest authors and artists are bound together in this essential illustrated anthology of Luciferian literature. Charting the progress of the Prince of Darkness via the short stories, novels and poetry of centuries past, this Satanic sampler summons forth the Devil in a fascinating array of guises Authors and artists include: Charles Baudelaire, Aleister Crowley, Dante Alighieri, Goethe, J-K Huysmans, Matthew G Lewis, Charles Maturin, Mark Twain, Washington Irving, Christopher Marlowe, John Milton, Edgar Allan Poe, Felicien Rops, Francisco Goya, Jean Delville, Gustave Dore, Franz Von Stuck, Albrecht Durer
