## 2020 American Heart Association Guidelines for ...

The new guidelines issued Wednesday by the American Heart Association provide science-based recommendations to maximize someone's chance of surviving cardiac arrest, which occurs when the heart suddenly stops beating. Cardiac arrest results in death 90% of the time in the U.S. when it happens outside a hospital.

## Updated CPR guidelines address physical and emotional ...

In 2010, the American Heart Association (AHA) released their 2010 Guidelines Highlights, which outlines the key changes regarding CPR procedures. The most prominent change was the rearranging of the order from A-B-C to C-A-B in the CPR sequence, emphasizing the chest compressions. The AHA's research concluded that the old approach creates an unnecessary delay in chest compressions.
