NEW YORK TIMES BESTSELLER • The #1 New York Times bestselling author of World War Z is back with “ the Bigfoot thriller you didn ’ t know you needed in your life, and one of the greatest horror novels I ’ ve ever read ” (Blake Crouch, author of Dark Matter and Recursion). As the ash and chaos from Mount Rainier ’ s eruption swirled and finally settled, the story of the Greenloop massacre has passed unnoticed, unexamined . . . until now. The journals of resident Kate Holland, recovered from the town ’ s bloody wreckage, capture a tale too harrowing—and too earth-shattering in its implications—to be forgotten. In these pages, Max Brooks brings Kate ’ s extraordinary account to light for the first time, faithfully reproducing her words alongside his own extensive investigations into the massacre and the legendary beasts behind it. Kate ’ s is a tale of unexpected strength and resilience, of humanity ’ s defiance in the face of a terrible predator ’ s gaze, and, inevitably, of savagery and death. Yet it is also far more than that. Because if what Kate Holland saw in those days is real, then we must accept the impossible. We must accept that the creature known as Bigfoot walks among us—and that it is a beast of terrible strength and ferocity. Part survival narrative, part bloody horror tale, part scientific journey into the boundaries between truth and

fiction, this is a Bigfoot story as only Max Brooks could chronicle it—and like none you ’ ve ever read before. Praise for *Devolution*  
“ Delightful . . . [A] tale of supernatural mayhem that fans of King and Crichton alike will enjoy. ” —Kirkus Reviews (starred review) “ The story is told in such a compelling manner that horror fans will want to believe and, perhaps, take the warning to heart. ” —Booklist (starred review)

In the new official Minecraft novel from the New York Times bestselling author of *Minecraft: The Island*, a stranded hero stumbles upon another castaway—and discovers that teamwork might just be the secret to survival. Wandering a vast, icy tundra, the explorer has never felt more alone. Is there anything out here? Did I do the right thing by leaving the safety of my island? Should I give up and go back? So many questions, and no time to ponder—not when dark is falling and dangerous mobs are on the horizon. Gurgling zombies and snarling wolves lurk in the night, and they ’ re closing in. With nowhere to hide, the lone traveler flees up a mountain, trapped and out of options . . . until a mysterious figure arrives, fighting off the horde singlehandedly. The unexpected savior is Summer, a fellow castaway and master of survival in these frozen wastes. Excited to find another person in this strange, blocky world, the explorer teams up with Summer, whose impressive mountain fortress as a safe haven . . . for now. But teamwork is a new skill for two people used to working alone. If they want to make it home, they will have to learn to work together—or risk losing everything.

*Conditioning to the Core* is a complete guide to training the torso for elite athletic performance. Color-coded stability, strength, and power training exercises, programs, and assessments provide all the tools for achieving high-performance goals. Full-color anatomical art and demonstration photos show how to develop the most functional athletic core.

Are you winning the battle but losing the war? Every leader has to deliver the goods—make budget, meet deadlines, and deftly manage people—to provide the inspirational fuel that keeps their business running day-in and day-out. But therein lies the danger of winning today's battle and losing the war—that is the long game of creating sustainable value in a volatile, uncertain world that is becoming ever-more complex and ambiguous. The greater purpose—today's number one business challenge—is winning the long game by being more strategic; developing the skills to look outside the four walls of the organization and see the world from the future back. Steven Krupp and Paul J. H. Schoemaker bridge the gap between what many see as the separate domains of strategy and leadership to show how to develop the discipline of strategic leadership in a world of growing uncertainty. While pragmatic to the core, *Winning the Long Game* creates vivid insights into the discipline of strategic leadership by applying it systemically through personal portraits of successful business leaders. The book profiles Elon Musk, Richard Branson, and Sara Blakely, as well as world-renowned figures like Pope Francis, Oprah Winfrey, and Nelson Mandela. What makes these strategic leaders successful is highlighted by contrasting them with others who are either mediocre or outright failures. *Winning the Long Game* is the must-have playbook for every leader and for any manager seeking to become more strategic in today's topsy-turvy world.

Brad Leithauser ’ s “ most satisfying collection in years ” (*Library Journal*), a bracing poetic journey that begins in a warm, peopled world and concludes in a cooler and more private place, embracing love of the human and natural world in all its states.

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.
