Fix: Nexus 7 Won't Turn On - Appuals.com

If your Nexus 7 appears completely frozen and won't power on or even charge, the most obvious solution is to pull the battery and reinsert it. However, the Nexus 7 doesn't have a user-serviceable battery. Instead of pulling the battery, hold down the power button for 30 seconds straight. You may have tried holding down the power button already - but you won't see any results until you hold it down for the entire 30 seconds.
