## ~~Browns Books~~

Blood and Guts is a nifty little book designed to teach kids about the workings of the human body while having fun doing it. Making learning fun is what the Brown Paper School project is all about; a group of California teachers, writers, and artists came together periodically to put together an impressive number of educational books for children, working on the principle "Accept no substitutes for fun."

Presents projects to perform, using materials commonly found around the house, that enable Smart Art to present logical explanations for the magic and mystery created by Wiz.

An inspirational biography of Laura Bridgman, who, after losing her hearing, sight, and sense of smell at a young age, paved the way for future generations of children with disabilities, traces her remarkable life and her dedication to helping others.

Text, illustrations, and suggested activities offer a common-sense approach to mathematic fundamentals for those who are slightly terrified of numbers.

An introduction to dinosaurs with instructions for related projects.

Describes how the Romans put to use and expanded the scientific achievements of earlier civilizations.

Hundreds of mathematical events, jokes, riddles, puzzles, investigations and experiments showing maths is relevant and fun.

Offers a real-life account of the author's adventures into the wilds of Africa, from nighttime noises of wild animals and traveling on small boats to meeting the natives and more.

Demonstrations accompanied by explanations illustrate how and why the senses can be fooled.
