Financial statements are the basis for a  
wide range of business analysis.

Managers, securities analysts, bankers,  
and consultants all use them to make  
business decisions. There is strong  
demand among business students for  
course materials that provide a framework  
for using financial statement data in a  
variety of business analysis and valuation  
contexts.

Business analysis & valuation : using  
financial statements ...

This course introduces a framework for  
business analysis and valuation using  
publicly available information, such as the  
information contained in financial  
statements, in order to develop an in-depth  
analysis of a firm and extract its  
fundamental value. Much of the course's  
emphasis is on case studies.
