Canadian Professional

~~Engineering Practice And Ethics~~

It explains what the practice of professional engineering is in Canada and covers the codes of ethics that professional engineers must embrace. The text touches on differences in regulations and ethical codes across Canada, but the Alberta and Ontario codes are cited most often as models for the rest of the country.

Engineers Canada is the national organization of the 12 provincial and territorial associations that regulate the practice of engineering in Canada. Engineers Canada serves these associations, which are its sole members, by delivering national programs for standards of engineering education, professional qualifications and professional practice. The organization was established in 1936 as the Dominion of Canada Council of Professional Engineers. In the late 1950s, the name became the Canadian Co

~~Engineering Practice And
Wikipedia~~

The Professional Engineers Act (PEA) gives PEO Council the authority to establish, develop and maintain standards of practice that must be adhered to by all engineers. Practice guidelines are documents that provide advice and recommendations on engineering best practices, specifically around performing engineering work in accordance with the PEA.
