Topics in each chapter build from basic ideas that connect with the students experience to the more complex chemistry content. - Art and design provide visual representations of concepts at both the atomic and macromolecular real-life levels. - Every section contains one or more sample problems, which serve as models to assist students in developing problem solving skills. Each sample appears with a complete discussion of its solution, plus a study check for immediate practice, with answers provided at the end of the chapter. - Sets of questions and problems, integrated throughout and at the end of each chapter, encourage students to apply new material immediately and test their understanding. - Pedagogy
