the cooling system, care of battery, etc., which are absolutely necessary to economical and satisfactory operation. Your car is a splendid piece of machinery. If properly cared for, it will give you years of satisfactory service at little cost. When repairs are needed, we recommend having the work done by an authorized Ford dealer. They are provided with special service equipment. Furthermore they are interested, more than any one else, in your personal satisfaction with the car. Let experienced mechanics make repairs or adjustments. Your car is too valuable a piece of machinery to place in unskilled hands. Expert workmanship is just as essential in servicing your car as it is in building it.

The challenges that space poses for political theory are profound. Yet until now, the exploration and utilization of space has generally reflected – but not challenged – the political patterns and impulses which characterized twentieth-century politics and International Relations. This edited volume analyses a number of controversial policies, and contentious strategies which have promoted space activities under the rubric of exploration and innovation,

militarization and weaponization, colonization and commercialization. It places these policies and strategies in broader theoretical perspective in two key ways. Firstly, it engages in a reading of the discourses of space activities: exposing their meaning-producing practices; uncovering the narratives which convey certain space strategies as desirable, inevitable and seamless. Secondly, the essays suggest ways of understanding, and critically engaging with, the effects of particular space policies. The essays here seek to 'bring back space' into the realm of International Relations discourse, from which it has been largely removed, marginalized and silenced. The various chapters do this by highlighting

how activities in outer space are always connected to earth-bound practices and performances of the every day. Securing Outer Space will be of great interest to students of space power, critical security studies and IR theory.

the Face, and Lulu on the Bridge established him as an award-winning filmmaker. The Inner Life of Martin Frost brings together his talents as a novelist and filmmaker with a work that is tender, moving, and funny. Searching for solitude, the writer Martin Frost borrows a friend's country house. Waking up one morning, he is shocked to find a nearly naked young woman beside him in bed. She also has a key to the house and claims to be the owner's niece. Martin's initial annoyance at Claire's intrusion is rapidly forgotten as he falls passionately in love with her. Even when it is revealed that Claire is not who she claims to be, their idyllic passion continues--until she suddenly falls ill. The Inner Life of Martin Frost is
