nitrogen fertilizers in  
spring wheat  
production

Most foliar  
applications are used  
to supply  
micronutrients. Some  
agronomists  
recommend using a  
nitrogen solution as a  
carrier for summer  
fungicide applications  
to corn. However, as  
noted in the previous

Read Book  
Foliar Applied  
Nitrogen, research  
has found very  
modest yield  
improvements from  
foliar-applied  
nitrogen (N). The  
gains are certainly  
not enough to pay for  
the cost of the  
application, so most  
of these agronomists  
recommend foliar  
nitrogen only if it's  
applied as the carrier
