Named a 2013 Doody's Essential Purchase! "Since there are few books available on this topic that are this comprehensive and well-organized, this book should be of value to anyone interested in the topic of assisted living facilities in the U.S." Score: 98, 5 stars. (Doody's Medical Reviews) "This book is much needed. It offers a practical approach to key issues in the management of an assisted living facility... It is especially pleasing to see the long needed collaboration between nursing, social services, and education that is reflected by the training of the authors. This book is an important milestone for the field of aging and assisted living administration." From the Foreword by Robert Newcomer, PhD, Department of Social and Behavioral Sciences University of California-San Francisco Assisted Living Administration and Management contains all the essentials for students new to the field, as well as nuanced information for professionals looking to fine-tune their skills. This comprehensive resource provides deeper insights to address the ever-changing world of the assisted living community, containing effective best practices and model programs in elder care. The authors provide the necessary tools and tips to maximize the overall health, safety, and comfort of residents. This landmark reference, for assisted living and senior housing administrators as well as graduate students, contains the most practical guidelines for operating assisted living facilities. It offers advice on hiring and training staff, architecture and space management, and more. This multidisciplinary book is conveniently organized to cover the most crucial aspects of management, including organization; human resources; business and finance; environment; and resident care. Key Features: Highlights the most effective practices and model programs in elder care that are currently used by facilities throughout the United States Contains useful details on business and financial management, including guidelines for marketing, legal issues and terms, and public policy issues Includes chapters on environmental management, with information on accessibility, physical plant maintenance, and disaster preparedness Emphasizes the importance of holistic, resident care management, by examining the biological, psychological, and social aspects of aging Enables students to evaluate, analyze, and synthesize information on how to operate assisted living facilities

Destined to become the defining work on the subject, this timely reference addresses the single fastest growing segment of the senior living industry -- assisted living for those who are unable to live independently but who do not need intensive nursing home care, meals, housekeeping, or twenty-four hour access to medical assistance. Victor Regnier's visually rich guide includes dozens of design solutions from successful assisted living facilities along with fifteen case studies from the U.S. and Europe. The book also covers recent developments in the industry including major changes in financing, growth of dementia, and interest in aging-in-place. All in all, this is the most comprehensive guide to assisted living design that you'll find in any single volume.

Legal Nurse Consulting Principles and Practices, Fourth Edition, provides foundational knowledge on the specialty nursing practice of legal nurse consulting. Legal nurse consulting is defined, and essential information about the practice is discussed (history, certification, scope and standards of practice, and ethical and liability considerations). The essentials of the law and medical records are explored. Analysis of the various types of legal cases on which legal nurse consultants work is provided, as are other practice areas for legal nurse consultants. The various roles and skills of legal nurse consultants are explored, and the textbook concludes with discussion of the ways in which legal cases are adjudicated. This volume allows nurses to bridge the gap from their clinical experience to the unfamiliar territory of the legal world, with practical advice on topics including tactics for being cross-examined in the courtroom and investigative and analytical techniques for medical records. Individual chapters by subject-matter experts focus on the full range of legal, medical, and business issues that new or experienced legal nurse consultants and nurse experts will encounter in their work. A nuanced look at the realities and complexities of toxic torts, medical malpractice cases, civil rights in correctional healthcare, ERISA and HMO litigation, and other practice areas is offered. Suitable for experienced nurses studying for certification as legal nurse consultants, and for expert witnesses, practitioners seeking to expand their current legal nurse roles, and other healthcare and legal practitioners.

The Washington Information Directory (WID) is a topically organized reference resource that lists contact information for federal agencies and nongovernmental organizations in the Washington metro area along with a brief paragraph describing what each organization does related to that topic. In addition, WID pulls together 55 organization charts for federal agencies, congressional resources related to each chapter topic, hotline and contact information for various specific areas of interest (from Food Safety Resources to internships in Washington), and an extensive list of active congressional caucuses and contact details. WID has two appendices, one with thorough information on congresspersons and committees, and the second with governors and embassies.
