“Inside the Nudge Unit” is a book written by David Halpern, who is the Chief Executive of the Behavioural Insights Team (BIT), unofficially known as the “Nudge Unit”. BIT was originally set up in 2010 within the UK Cabinet Office, but in 2014, it was privatised by splitting the ownership equally between the UK government, the charity Nesta , and BIT’s employees.

### **Book Review: Inside the Nudge Unit – The Curious Learner**

‘Inside The Nudge Unit’ is a fascinating book which explains how the use of controlled experiments has helped government policy makers base decisions on scientific evidence rather than doing things the way it has always been done. Using insights from the behavioural sciences the UK government’s

questions, but we don't always make the right choices. Behavioural scientist Dr David Halpern heads up Number 10's 'Nudge Unit', the world's first government institution that uses behavioural economics to examine and influence human behaviour, to 'nudge' us into making better decisions.

### **Inside the Nudge Unit: How Small Changes Can Make a Big ...**

The Nudge Unit is working closely with the Department of Health and Social Care in crafting the government response. The most visible manifestation of its influence to date is in the communication around hand-washing and face touching – in particular the use of “disgust” as an incentive to wash hands and the suggestion of singing Happy Birthday to ensure hands are washed for the requisite 20 seconds.
