Who invented the "House of Windsor" as a royal name? Who founded Westminster Abbey? Which King had 21 illegitimate children? This engaging volume offers a continuous history of the English monarchy that shows how nine dynasties rose and fell, and uncovers the more unusual incidents of royal history. From Egbert—crowned in 802—to Elizabeth II, the histories of each monarch's reign, as well as the extraordinary lives of their spouses, consorts, mistresses, and bastard children, are all addressed.

Who invented the 'House of Windsor' as a royal name? Who founded Westminster Abbey? Which king had twenty-one illegitimate children? David Halliam answers all these questions and more. Here is a continuous history of the English monarchy, showing how the nine dynasties rose and fell. The book describes the most memorable features of the life and times of each king or queen - from Egbert, crowned in 802 and considered the first king of England, to Queen Elizabeth II - as well as recording the extraordinary lives of their queens, consorts, mistresses and bastard children. It also tells the story of the Saxons, describes what has happened to the monarchs' mortal remains, and relates many lively incidents of royal history that rarely appear in the text books. Read of the saintly Edward the Confessor, who is believed to have refused to consummate his marriage; of the rumbustious Henry VIII, given to beheading those who displeased him; of the 'little gentleman in black velvet', who caused the death of William III; and of Queen Victoria's strange servant, the 'Munshi', Queen Emma, who endured a trial by ordeal; and Anne Boleyn, widely suspected of being a

Where To Download Kings Queens Bones Bastards Whos Who In The English

witch. A complete list of the monarchs' reigns and a genealogical table showing the royal descent down thirty-seven generations from Egbert to Elizabeth II adds to the volume's reference value.

The Historical Dictionary of the British Monarchy provides a chronology starting with the year 495 and continuing to the present day, an introductory essay, an extensive bibliography, and over 600 cross-referenced dictionary entries on significant persons, places, events, institutions, and other aspects of British culture, society, economy, and politics. This book is a must for anyone interested in the British monarchy.

This informative entertaining read tells, with wit and understanding, England

For about a century and a half after they arrived from England, America's first permanent colonists considered themselves to be English. They were proud of their heritage and loyal to their country. England's royal family truly was the royal family of America--until the era of the American Revolution, when the colonies fought for their independence from England and its rulers. Elizabeth I, James I, Charles I, Charles II, James II, William III and Mary II, Anne, George I, George II, and George III--the English royals who were also the royals of early America--are all covered in this work. It begins with Queen Elizabeth I, as it was during her rule that Sir Walter Raleigh established his settlements in America, and ends with King George III, as it was during his rule that the American Revolution began. A biographical sketch is

Where To Download Kings Queens Bones Bastards Whos Who In The English

Monarchy From Edward To Elizabeth II provided for each royal and his or her spouse and legitimate children. Brief mention is made of mistresses and illegitimate children.

In the reign of Edward I, when asked Quo Warranto - by what warrant he held his lands - John de Warenne, the 6th earl of Surrey, is said to have drawn a rusty sword, claiming "My ancestors came with William the Bastard, and conquered their lands with the sword, and I will defend them with the sword against anyone wishing to seize them" John's ancestor, William de Warenne, 1st Earl of Surrey, fought for William the Conqueror at the Battle of Hastings in 1066. He was rewarded with enough land to make him one of the richest men of all time. In his search for a royal bride, the 2nd earl kidnapped the wife of a fellow baron. The 3rd earl died on crusade, fighting for his royal cousin, Louis VII of France... For three centuries, the Warennes were at the heart of English politics at the highest level, until one unhappy marriage brought an end to the dynasty. The family moved in the highest circles, married into royalty and were not immune to scandal. Defenders of the Norman Crown tells the fascinating story of the Warenne dynasty, of the successes and failures of one of the most powerful families in England, from its origins in Normandy, through the Conquest, Magna Carta, the wars and marriages that led to its ultimate demise in the reign of Edward III.

An original and innovative new approach to the history of Magna Carta, Ladies of Magna Carta examines the impact and influence that women had on the Baron's Rebellion and the production of the

Magna Carta. Magna Carta clause 39: No man shall be taken, imprisoned, outlawed, banished or in any way destroyed, nor will we proceed against or prosecute him, except by the lawful judgment of his peers or by the law of the land. This clause in Magna Carta was in response to the appalling imprisonment and starvation of Matilda de Braose, the wife of one of King John's barons. Matilda was not the only woman who influenced, or was influenced by, the 1215 Charter of Liberties, now known as Magna Carta. Women from many of the great families of England were affected by the far-reaching legacy of Magna Carta, from their experiences in the civil war and as hostages, to calling on its use to protect their property and rights as widows. Ladies of Magna Carta looks into the relationships – through marriage and blood – of the various noble families and how they were affected by the Barons' Wars, Magna Carta and its aftermath; the bonds that were formed and those that were broken. Including the royal families of England and Scotland, the Marshals, the Warennes, the Braoses and more, Ladies of Magna Carta focuses on the roles played by the women of the great families whose influences and experiences have reached far beyond the thirteenth century.

Researching your family history can be an absorbing hobby, or a one-off project that your whole family will value and build on. This book is packed with ideas about the different aspects of genealogy and the main free or low cost resources available to help you in your quest. CONTENTS: Getting started - online family searching - harnessing internet sources - tearless transcribing - organised support - vital public records -
