This was the first paper model I made, a few years back, and while challenging, it wasn't frustrating. The working features add to the fun of a Khmer-like temple just waiting for Indiana Jones to show up. The outer band of trees is laid out as a maze.

For three thousand years, the world's most dangerous treasure has been lost. Now the code that reveals its hiding place is about to be broken . . . Greece, 1947. Europe is just beginning to heal after World War II, but the fighting in Greece continues as a civil war is waged. Sam Grant, a disgraced ex-Special Operations Executive soldier and an adventurer by trade, is lured back to the Mediterranean by a secret from his past: six years ago, a dying archaeologist entrusted him with his life's work—a leather notebook full of unintelligible notes written in Ancient Greek. When the KGB show up looking for the notebook, Grant sets out to protect the discoveries that the archaeologist lost his life for—and to find out what could be so valuable that the CIA and the British Secret Intelligence Service want it as well. With help from a brilliant Oxford professor and a beautiful Greek archaeologist with her own secrets to hide, Grant follows the notebook to a hidden cave on Crete, where a tablet of mysterious writing has lain hidden for thousands of years. Deciphered, it could lead to one of the greatest prizes in history. But the treasure is as dangerous as it is valuable. Seeking the places where history and myth collide, following the trail left by Homer in his epic poems of heroic warriors, vengeful gods, and treasure beyond anything known to man, Grant is plunged into a labyrinth of ancient cults, forgotten mysteries, and lost civilizations. But time is running out. The secrets of the distant past may hold the key to the newest threats of the modern world. . . . "Fans of thrillers with an Indiana Jones angle who just can't wait for the next James Rollins or Steve Berry novel should check out this very entertaining tale....With a lightning-fast pace, a cast of colorful characters, plenty of twists and turns, and a story that reaches into the past and the future, the novel is sure to please fans of the historical-thriller genre." --Booklist

The first book in the Knights of the Lost Temple series, the Bronze Scroll tells the story of Sam Romero and Rebecca Schreiber, as they investigate the latest corporate scandal. Sam is a corporate investigator, and Rebecca is a newspaper reporter, and they work together to figure out why a rogue corporate executive, Roy Griffin III, paid a large bribe for land development permits in Jerusalem, the Dead Sea and other locations in Israel. After Sam and Rebecca learn that Roy has been using the ancient treasure map known as the Copper Scroll to search for ancient religious artifacts in a way that could spark a potentially catastrophic war, they need to learn enough about the scroll to stop him. Soon they discover that the scroll's mysteries go beyond anything they had imagined. Falling in love but realizing that their professional rules mean they have to stop dating, can Sam and Rebecca resist their forbidden love? After an Israeli land development official is murdered and assassins come after him, Sam must go underground while working to solve the scroll's last mysteries. Then, when Rebecca is kidnapped, he has only hours left to rescue her and stop Roy from gaining the power that he seeks through the missing treasures. Using mysterious spiritual powers that he has long resisted, and the protection of a secret knighthood that he discovers, Sam must learn the explosive truth needed to save Rebecca, while uncovering the true spiritual meaning of the ancient Copper Scroll.
