orchestrated drone strikes against U.S. citizens, to leading the discourse on criminal justice, Senator Rand Paul has taken Washington by storm. His outreach to this country's minority communities alone- championing reforms of mandatory minimum sentencing, school choice, and the creation of enterprise zones for economically depressed areas- distinguishes him as a politician and Republican the likes of which are rarely seen. What lies ahead is Senator Paul's plan for America, where lower taxes and smaller government empower a muscular and expansive middle class; an America that doesn't engage in nation-building or fight wars where the best outcome is stalemate; an America that believes in constitutionally protected liberty and the separation of powers.
