ResurrectionChest is a very simple DeathChest plugin. Players set up a deathchest using a chest and a sign at some location ahead of time, and when they die the items they would've dropped get transferred to the chest instead. If the chest is full, the items are lost. It is compatible with double chests and hoppers.

This book directs critical attention to one of the most ubiquitous and yet under-analyzed games, Minecraft. Drawing on three years of ethnographic fieldwork into mobile games in Australian homes, the authors seek to take Minecraft seriously as a cultural practice. The book examines how Minecraft players engage in a form of gameplay that is uniquely intergenerational, creative, and playful, and which moves ambivalently throughout everyday life. At the intersection of digital media, quotidian literacy, and ethnography, the book situates interdisciplinary debates around mundane play through the lens of Minecraft. Ultimately, Exploring Minecraft seeks to coalesce the discussion between formal and informal learning, fostering new forms of digital media creativity and ethnographic innovation around the analysis of games in everyday life.

This book examines the role of intangible assets (IA) in companies and countries for achieving sustainable economic growth. The authors particularly focus on Sweden and other Nordic countries to analyse the IA gap using a systematized "IA metrics" approach. They also discuss the incentives needed for strategic investments into useful IA to gain national competitiveness from an economic, social and environmental policy perspective. The authors contend that despite the increasing importance of IA and intellectual capital (IC) in the economy, the current discussion has only been centered on intellectual property, which is one of the more prominent forms of intangibles. As this book demonstrates, IC and IA encompass wider dimensions of human, process, market, and renewal capital, among others. Featuring real case examples from Spotify, Minecraft and Izettle, this book offers a strategy for the resurrection of competitive advantage in the globalized economy and the advancement of some key United Nations Sustainable Development Goals (SDGs).
