Robert Olen Butler, winner of the Pulitzer Prize in Fiction, teaches graduate fiction at Florida State University — his version of literary boot camp. In From Where You Dream, Butler reimagines the process of writing as emotional rather than intellectual, and tells writers how to achieve the dreamspace necessary for composing honest, inspired fiction. Proposing that fiction is the exploration of the human condition with yearning as its compass, Butler reinterprets the traditional tools of the craft using the dynamics of desire. Offering a direct view into the mind and craft of a literary master, From Where You Dream is an invaluable tool for the novice and experienced writer alike.

A practical guidebook for meditators interested in achieving the states of bliss and deep focus associated with the Buddhist jh?nas One of the elements of the Eightfold Path is Right Concentration: the one-pointedness of mind that, together with ethics, livelihood, meditation, and more, leads to the ultimate freedom from suffering. So how does one achieve Right Concentration? According to the Buddha himself, the jh?nas—a series of eight progressive altered states of consciousness—are an essential method. But because the jh?nas can usually be achieved only through prolonged meditation retreat, they have been shrouded in mystery for years. Not anymore. In Right Concentration, Leigh Brasington takes away the mystique and gives instructions on how to achieve them in plain, accessible language. He notes the various pitfalls to avoid along the way and provides a wealth of material on the theory of jh?na practice—all geared toward the practitioner rather than the scholar. As Brasington proves, these states of bliss and concentration are attainable by anyone who devotes the time and sincerity of practice necessary to realize them.
