In spring 2011, the American Academy of Pediatrics (AAP) will release sixth edition materials for the Neonatal Resuscitation Program (NRP). This edition brings changes in resuscitation practice and a new education methodology that shifts the instructor from "teacher" to "learning facilitator" and requires the NRP course participant to assume more responsibility for learning.

CD includes: full text plus dramatic footage of actual resuscitation events, laryngoscopic view of the airway, digitized animation, review questions, and learner-directed interactive video scenarios.

New 7th Edition! Powerful resource for interactive, simulation-based teaching and learning! The Neonatal Resuscitation Program (NRP) is an educational program jointly sponsored by the American Academy of Pediatrics (AAP) and the American Heart Association (AHA). The course is designed to teach an evidence-based approach to resuscitation of the newborn to hospital staff who care for newborns at the time of delivery. New in the 7th edition! Text updated to reflect the 2015 AAP/AHA Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care of the Neonate Two new chapters added covering post-resuscitation care and preparing for resuscitation 140+ new full-color photographs replacing most line drawings

This book contains analytical presentations of the science of Clinical Paediatrics. Each section of the book has lucid and systematic description of history taking and clinical examination followed by diagnostic clinical information on common cases in Paediatric Medicine.

The new edition of this highly acclaimed step-by-step guide continues to offer readers with the relevant physiology, evidence-base and rationale for the key midwifery skills. Authored by experienced practitioners and educationalists, Skills for Midwifery Practice 4e will be ideal for all midwifery students, both from within the UK and worldwide. Presents over 150 essential midwifery procedures in an easy-to-read, quick reference format 'Learning Objectives' and 'end-of-chapter' self-assessment exercises allow readers to monitor their progress Refers to the latest evidence and research, including current national and international guidelines Explains the underlying physiology associated with pregnancy and childbirth Over 150 artworks help explain physiological processes and clinical procedures 'Roles and Responsibilities' boxes define the nature and extent of current practice Ideal for use as a basis for teaching and assessment New format - now with colour - makes learning even easier! Explores the use and significance of the Modified Early Obstetric Warning Scoring Chart Discusses advances in equipment usage including the application of sequential compression devices, temporal artery thermometers, and pulse oximetry in the early detection of critical congenital heart disease Contains advances in microbiology and infection control including the application and removal of gloves and the use of ANTT for each relevant procedure Physiology updates include an expanded section on normal and abnormal breathing patterns, the structure of the stratum corneum at birth and the factors that affect its barrier function, and neonatal reflexes present at birth Updated information regarding the use of the automated external defibrillator during maternal resuscitation, and the use of blended air and oxygen and pulse oximetry during neonatal resuscitation Care of the traumatised perineum - including expanded discussion of modern suture materials Recognition and management of complications associated with infusion therapy and epidural analgesia

Print+CourseSmart

Leave the self-doubt behind — get fully grounded in effective perinatal care, with Perinatal Nursing, 5th Edition, an official publication of the Association of Women's Health, Obstetric and Neonatal Nurses (AWHONN). This freshly updated, comprehensive resource offers expert

guidelines and best practices for the full range of patient care issues, from cultural practices and pregnancy complications to newborn assessments and nutrition. Stay current with this must-have, evidence-based support for both perinatal and labor and delivery nursing. 5 Star Praise for the Previous Edition! "My boss recommended this book, and I am glad she did. It is very comprehensive, up to date on the latest practices, and explains very much the "why?" we do certain things the way we do in L&D units. Pretty much explains you what the standard of care is across the board. Some of my experienced nurses also found it very useful as a refresher and ended up buying it as well. Worth the investment." "I can see myself referring to this book often in my career." "A must have for Mother/Baby Nurses. I think L&D RN's would benefit a lot too. I got it for the RN MNN RNC exam and so far it has been great for resource and up to date standard of care information.. good investment."

A new edition of the proven guide to providing emergency care for mothers-to-be in acute medical distress Now in its sixth edition, Critical Care Obstetrics offers an authoritative guide to what might go seriously wrong with a pregnancy and delivery and explains how to manage grave complications. Written by an international panel of experts, this updated and revised edition contains the most recent advances in the field as well as recommendations for treating common complications such as bleeding, thrombosis, trauma, acute infection, airway problems and drug reactions in a pregnant patient. This important guide offers the information needed to enable the early-on recognition of life-threatening conditions and the use of immediate life-saving treatments in emergency situations. The techniques and procedures outlined help to maximise the survival prospects of both the mother and fetus. The authors offer an accessible text for any healthcare professional responsible for the care and management of pregnant women and their unborn children. Critical Care Obstetrics is a vital resource that: Contains a clear guide for early recognition of conditions which may prove life threatening Offers new information on Analgesia and sedation; Imaging and interventional radiology in pregnancy; Oxygen therapy; and Pulmonary hypertension Presents protocols for implementing life-saving treatments in emergency situations Written by international experts in emergency obstetric medicine Designed for use by obstetricians and obstetrician and gynecology trainees, Critical Care Obstetrics is the updated guide to the management of serious conditions in pregnancy and delivery.

2011 was a year marked by some key progress in European integration: new moves towards Treaty revision, new rules for economic and budgetary coordination, and a more evident role of the EU in national policymaking. In parallel, the destabilisation of the euro zone progressed: the long-term effects of the Greek crisis have not been tackled by European policymakers, while tension shifted from the EU periphery to the very core of the euro zone. Most Member States pursued punitive austerity measures. All these trends undoubtedly represent worrying signs for the future of the European Social Model. The European Union is therefore dealing with crucial questions about its future sustainability: the fate of the euro is in jeopardy, as is the very meaning of the European integration project. A new compromise is needed between economic competitiveness and social solidarity. Otherwise, the risk will be an increase in public disaffection towards Europe and reciprocal accusations of egoism and lack of strategic views among the Member States. This 2011 edition of Social developments in the European Union examines the ways in which the EU has changed in this turbulent phase. Institutional innovations were paralleled by new economic governance tools and further reinforcement of the austerity paradigm. Beyond economic governance, this volume sheds light on the state of European social dialogue, the role of structural funds, the fate of the social dimension of Europe 2020, and the activities of the European Court of Justice. Analysis of the EU level is complemented by a critical review of national reforms, especially in the case of health care.

Equipment for Respiratory Care, Second Edition continues to break the archetype of equipment texts. This text uniquely focuses on the principles of the equipment in a practical, clinically relevant manner

Based on the latest information and indicators in science and innovation, the OECD Science, Technology and Industry Outlook 2012 reviews key trends in STI policies and performance in OECD countries and major emerging economies, and across a number of thematic areas.
