James Salter's exalted place in American letters is based largely on the intense admiration of other writers, but his work resonates far beyond the realm of fellow craftsmen, addressing themes--youth, war, erotic love, marriage, life abroad, friendship--that speak to us all. Following the publication of his first novel, Salter left behind a military career of great promise to write full-time and--through decades of searching, exacting work--became one of American literature's master stylists. Only months before he died, at the age of eighty-nine, he agreed to serve as the first Kapnick Writer-in-Residence at the University of Virginia, where he composed and delivered the three lectures presented in this book and introduced by his friend and fellow novelist, National Book Award-winning author John Casey. Salter speaks to us here with an easy intimacy, sharing his unceasing enchantment with the books that made up his reading life, including works by Balzac, Flaubert, Babel (whose prose is "like a handful of radium"), Dreiser, Céline, Faulkner. These talks provide an invaluable opportunity to see the way in which a great writer reads. They also offer a candid look at the writing life--the rejection letters, not one but two negative reviews in the New York Times for the same book, writing in the morning or at night and worrying about money during the long afternoons. Salter raises the question, Why does one write? For wealth? For admiration, or a sense of "importance"? Confronting a blank sheet that always offers too many choices, practicing a vocation that often demands one write instead of live, the answer for Salter was creating a style that captured experience, in a world where anything not written down fades away. Kapnick Foundation Distinguished Writer-in-Residence Lectures

From the moment J. D. Salinger published The Catcher in the Rye in 1951, he was stalked by besotted fans, would-be biographers, and pushy journalists. In this collection of rare and revealing encounters with the elusive literary giant, Salinger discusses--sometimes willingly, sometimes grudgingly--what that onslaught was like, the autobiographical origins of his art, and his advice to writers. Including his final, surprising interview, and with an insightful introduction by New York Times journalist David Streitfeld, these enlightening, provocative, and even amusing conversations reveal a writer fiercely resistant to the spotlight but powerless to escape its glare.

"Perhaps the best book by the foremost stylist of his generation" (New York Times), J. D. Salinger's Franny and Zoocy collects two works of fiction about the Glass family originally published in The New Yorker. "Everything everybody does is so--I don't know--not wrong, or even mean, or even stupid necessarily. But just so tiny and meaningless and--sad-making. And the worst part is, if you go bohemian or something crazy like that, you're conforming just as much only in a different way." A novel in two halves, Franny and Zoocy brilliantly captures the emotional strains and traumas of entering adulthood. It is a gleaming example of the wit, precision, and poignancy that have made J. D. Salinger one of America's most beloved writers.
