Pedigree Pogil - SIGE Cloud

Pedigrees are used primarily by genetic counselors when helping couples decide to have children when there is evidence of a genetically inherited disorder in one or both families. They are also used when trying to determine the predisposition of someone to carry a hereditary disease for example, familial breast cancer.

Genetics pogil

Pedigrees How do scientists trace hereditary diseases through a family history? BACKGROUND: Imagine you want to learn about an inherited genetic trait present in your family. How would you find out the chances of passing the trait to your children? To do so, genetic counselors often prepare a pedigree, a chart that shows how a trait is inherited over several generations in a family.
