with new technical skills that will benefit her in the future.

### *Intro to Stop Motion Animation - Teach Kids Engineering*

With stop-motion animation, you set up a clay model or some other kind of model, then take a photograph and store the image. Then alter the model slightly such as moving an arm, leg, face and so on, then take another image. Carry on doing this until the whole story has been told. You will now have a complete set of images.
