#1 NEW YORK TIMES BESTSELLER * "Brilliant . . . a celebration of human ingenuity [and] the purest example of real-science sci-fi for many years . . . utterly compelling."--The Wall Street Journal The inspiration for the major motion picture Six days ago, astronaut Mark Watney became one of the first people to walk on Mars. Now, he's sure he'll be the first person to die there. After a dust storm nearly kills him and forces his crew to evacuate while thinking him dead, Mark finds himself stranded and completely alone with no way to even signal Earth that he's alive--and even if he could get word out, his supplies would be gone long before a rescue could arrive. Chances are, though, he won't have time to starve to death. The damaged machinery, unforgiving environment, or plain-old "human error" are much more likely to kill him first. But Mark isn't ready to give up yet. Drawing on his ingenuity, his engineering skills--and a relentless, dogged refusal to quit--he steadfastly confronts one seemingly insurmountable obstacle after the next. Will his resourcefulness be enough to overcome the impossible odds against him? NAMED ONE OF PASTE'S BEST NOVELS OF THE DECADE "A hugely entertaining novel [that] reads like a rocket ship afire . . . Weir has fashioned in Mark Watney one of the most appealing, funny, and resourceful characters in recent fiction."--Chicago Tribune "As gripping as they come . . . You'll be rooting for Watney the whole way, groaning at every setback and laughing at his pitchblack humor. Utterly nail-biting and memorable."--Financial Times

Farah and her best friend, Allie Liu, are getting excited to turn in their applications to the Magnet Academy, where they both hope to attend sixth grade. But when new girl Dana Denver shows up, Farah's world is turned upside down. As Dana starts bullying Farah's little brother, Samir, Farah begins to second-guess her choice to leave him behind at Harbortown Elementary/Middle School. Determined to handle it on her own, Farah comes up with a plan--a plan that involves lying to those closest to her. Will her lies catch up with her, or can Farah find a way to defeat the bully and rock fifth grade?

Support kindergarten students with 180 daily practice activities to build their mathematical fluency. Each problem is tied to a specific mathematical concept to help students gain regular practice of key grade-level skills. This book features quick, diagnostic-based activities that are correlated to College and Career Readiness and other state standards, and includes data-driven assessment tips. Digital resources include assessment analysis tools and pdts of the activity sheets. With these daily practice activities, teachers and parents will be helping kindergarteners improve their math skills in no time!

Each and every human being in history has been created to make the world a better place. Some of us have been blessed with more health, wealth, wisdom, and security. But all of us have a unique ability to make a difference. There is a compelling Quran verse informing us that all living beings have been chosen by God as his khalifas (agents and inheritors) on earth. The question that constantly whispers in my ear and drives my every action is "In what specific ways can I be God's khalifa?" With so much chaos surrounding us, where would I start? I had recently felt confused. I wanted to do something, but I didn't know what. And so this book emerged. Writing it has been a process to overcome my paralysis and start the momentum. Through this self-reflection, I have come up with a five-step formula to living happily forever. Firstly, I hope this book will inspire others to determine their ultimate destiny as I've attempted to do. Secondly, I hope to provide a roadmap for others toward an eternal life of happiness by helping those less fortunate, utilizing our unique skills and interests. Thirdly, I hope to bridge the gap between the American and Saudi cultures. Extremists have created unjustified distrust on both sides. Most Americans feel Saudis are violent, backward, and unapproachable, while many Saudis see Americans as imperialistic warmongers. Having lived most of my life between both cultures, I will highlight the similar values and beliefs Americans and Saudis share. I aim to outvoice the extremists, who have thus far dominated the conversation, and to provide a realistic picture of both cultures.

Special edition slipcase edition of John Green's Paper Towns, with pop-up paper town. From the bestselling author of The Fault in our Stars. Quentin Jacobsen has always loved Margo Roth Spiegelman, for Margo (and her adventures) are the stuff of legend at their high school. So when she one day climbs through his window and summons him on an all-night road trip of revenge he cannot help but follow. But the next day Margo doesn't come to school and a week later she is still missing. Q soon learns that there are clues in her disappearance . . . and they are for him. But as he gets deeper into the mystery - culminating in another awesome road trip across America - he becomes less sure of who and what he is looking for. Masterfully written by John Green, this is a thoughtful, insightful and hilarious coming-of-age story.

Each book in the Daily Warm-Ups: Reading series provides students with over 150 opportunities to master important reading skills. The warm-ups include both fiction and nonfiction reading passages, followed by questions that are based on Bloom's Taxonomy to allow for higher-level thinking skills. Book jacket.
