What is FM - Definition of Facility Management

Striving for High-Performance Buildings
and Sustainable Facility Management.

What the Facility Manager must do to
keep the buildings performing at a high
level. High performance is a term that has
been used over the last few years to
describe what we once considered to be
“ green ” buildings. Despite the changing
language used to describe these facilities
— from smart to green to sustainable to
high performing — it has remained
consistent that the characteristics used to
define these ...
