Taking Drugs in the Hippie Era. During the 1960s, the hippie movement gradually transformed from a collection of literate nonconformists to a reaction against American militarism. The hippie era had two major themes grounded in hippie values: peace, love and universal brotherhood on the one hand and the anarchism of psychedelia on the other.

Among the most significant subcultures in modern U.S. history, the hippies had a far-reaching impact. Their influence essentially defined the 1960s—hippie antifashion, divergent music, dropout politics and “make love not war” philosophy extended to virtually every corner of the world and remains influential.

Download The Making Of A Counter Culture Icon books, At first glance, the works of Fedor Dostoevsky (1821-1881) do not appear to have much in common with those of the controversial American writer Henry Miller (1891-1980). However, the influencer of Dostoevsky on Miller was, in fact, enormous and shaped the latter's view of the world, of ...

“Turn on, tune in, drop out,” Timothy Leary advised young people in the 1960s. And many did, creating a counterculture built on drugs, rock music, sexual liberation, and communal living. The hippies preached free love, promoted flower power, and cautioned against trusting anyone over thirty. Eschewing money, materialism, and politics, they repudiated the mainstream values of the times. Along the way, these counterculturists created a lasting legacy and inspired long-lasting social changes. The Hippies and American Values uses an innovative approach to exploring the tenets of the counterculture movement. Rather than relying on interviews conducted years after the fact, Timothy Miller uses “underground” newspapers published at the time to provide a full and in-depth exploration. This reliance on primary sources brings an immediacy and vibrancy rarely seen in other studies of the period. Miller focuses primarily on the cultural revolutionaries rather than on the political radicals of the New Left. It examines the hippies’ ethics of dope, sex, rock, community, and cultural opposition and surveys their effects on current American values. Filled with illustrations from alternative publications, along with posters, cartoons, and photographs, The Hippies and American Values

provides a graphic look at America in the 1960s. This second edition features a new introduction and a thoroughly updated, well-documented text. Highly readable and engaging, this volume brings deep insight to the counterculture movement and the ways it changed America. The first edition became a widely used course-adoption favorite, and scholars and students of the 1960s will welcome the second edition of this thought-provoking book.

This short overview of the United States hippie social movement examines hippie beliefs and practices.

"The Rise, Journey, and Demise of the American Counterculture provides a comprehensive history of the counterculture throughout the United States from its antecedents in the 1950s, origins in the early 1960s, emergence in the mid-1960s, and massive expansion in the late 1960s, to its demise in the early 1970s. Working against a historical narrative that portrays hippies and cultural dissidents as a brief-yet-vibrant phenomenon limited to the mid- to late 1960s, Bach focuses on the counterculture's overarching utopian and idealistic goals rather than the trite shorthand of "sex, drugs, and rock and roll." Exploring its connections to other movements of the period, including the New Left, civil rights, Black and Red Power, women's and gay liberation, and environmentalism, he demonstrates that the counterculture's push to create a new society fundamentally transformed American culture, and that its core ideals of egalitarianism, environmentalism, community, and creating alternative institutions have persisted to the present day. His is also the first history of the counterculture to draw upon numerous documents written by self-described "freaks" from 1964 through 1973, such as

underground newspapers, memoirs, personal correspondence, flyers, and pamphlets"--

An insightful introduction to hippie culture and how its revolutionary principles in the 1960s helped shape modern culture. • Includes 13 primary sources, including excerpts from articles, speeches, and original interviews, and Abbie Hoffman's trial interview • Presents original photography by acclaimed photographer Robert Altman, providing views of hippies at the height of 1960s culture

Peaceniks. Stoners. Tree huggers. Freaks. For many, the hippies of the 1960s and early 1970s were immoral, drug-crazed kids too spoiled to work and too selfish to embrace the American way of life. But who were these longhaired dissenters bent on peace, love and equality? What did they believe? What did they want? Are their values still relevant today? Bringing together the personal accounts and perspectives of 54 "old hippies," this book illustrates how their lives and outlooks have changed over the past five decades. Their collective narrative invites readers to reach their own conclusions about the often misunderstood movement of ordinary young people who faced an era of escalating war, civil turmoil and political assassinations with faith in humanity and a belief in the power of ideas.

The greatest wave of communal living in American history crested in the tumultuous 1960s era including the early 1970s. To the fascination and amusement of more decorous citizens,

hundreds of thousands of mostly young dreamers set out to build a new culture apart from the established society. Widely believed by the larger public to be sinks of drug-ridden sexual immorality, the communes both intrigued and repelled the American people. The intentional communities of the 1960s era were far more diverse than the stereotype of the hippie commune would suggest. A great many of them were religious in basis, stressing spiritual seeking and disciplined lifestyles. Others were founded on secular visions of a better society. Hundreds of them became so stable that they survive today. This book surveys the broad sweep of this great social yearning from the first portents of a new type of communitarianism in the early 1960s through the waning of the movement in the mid-1970s. Based on more than five hundred interviews conducted for the 60s Communes Project, among other sources, it preserves a colorful and vigorous episode in American history. The book includes an extensive directory of active and non-active communes, complete with dates of origin and dissolution.

Through much of the 20th century, federal policy toward Indians sought to extinguish all remnants of native life and culture. That policy was dramatically confronted in the late 1960s when a loose coalition of hippies, civil rights advocates, Black Panthers, unions, Mexican-Americans, Quakers and other Christians, celebrities, and others joined with Red Power activists to fight for Indian rights. In *Hippies, Indians and the Fight for Red Power*, Sherry Smith offers the first full account of this remarkable story. Hippies were among the first non-Indians of the post-World War II generation to seek contact with Native Americans. The counterculture saw Indians as genuine holdouts against conformity, inherently spiritual, ecological, tribal, communal-the original "long hairs." Searching for authenticity while trying to achieve social and

## Read Free The Hippies And American Values

political justice for minorities, progressives of various stripes and colors were soon drawn to the Indian cause. Black Panthers took part in Pacific Northwest fish-ins. Corky Gonzales' Mexican American Crusade for Justice provided supplies and support for the Wounded Knee occupation. Actor Marlon Brando and comedian Dick Gregory spoke about the problems Native Americans faced. For their part, Indians understood they could not achieve political change without help. Non-Indians had to be educated and enlisted. Smith shows how Indians found, among this hodge-podge of dissatisfied Americans, willing recruits to their campaign for recognition of treaty rights; realization of tribal power, sovereignty, and self-determination; and protection of reservations as cultural homelands. The coalition was ephemeral but significant, leading to political reforms that strengthened Indian sovereignty. Thoroughly researched and vividly written, this book not only illuminates this transformative historical moment but contributes greatly to our understanding of social movements.

While the youth counterculture remains the most evocative and best-remembered symbol of the cultural ferment of the 1960s, the revolution that shook American business during those boom years has gone largely unremarked. In this fascinating and revealing study, Thomas Frank shows how the youthful revolutionaries were joined—and even anticipated—by such unlikely allies as the advertising industry and the men's clothing business. "[Thomas Frank is] perhaps the most provocative young cultural critic of the moment."—Gerald Marzorati, *New York Times Book Review* "An indispensable survival guide for any modern consumer."—*Publishers Weekly*, starred review "Frank makes an ironclad case not only that the advertising industry cunningly turned the countercultural rhetoric of revolution into a rallying cry

to buy more stuff, but that the process itself actually predated any actual counterculture to exploit."—Geoff Pevere, Toronto Globe and Mail "The Conquest of Cool helps us understand why, throughout the last third of the twentieth century, Americans have increasingly confused gentility with conformity, irony with protest, and an extended middle finger with a populist manifesto. . . . His voice is an exciting addition to the soporific public discourse of the late twentieth century."—T. J. Jackson Lears, In These Times "An invaluable argument for anyone who has ever scoffed at hand-me-down counterculture from the '60s. A spirited and exhaustive analysis of the era's advertising."—Brad Wieners, Wired Magazine "Tom Frank is . . . not only old-fashioned, he's anti-fashion, with a place in his heart for that ultimate social faux pas, leftist politics."—Roger Trilling, Details
