Italians (Italian: italiani [itaˈliːaˈni]) are a Romance ethnic group and nation native to the Italian geographical region and its neighboring insular territories. Italians share a common culture, history, ancestry and language. Legally, Italian nationals are citizens of Italy, regardless of ancestry or nation of residence (in effect, however, Italian nationality is largely based on jus ...

Italian is still one of the easiest languages to learn, and this is a simple rule just requires a little bit of practice. The girlish side of things When you're talking about feminine nouns, use the following rules. La is used for all feminine singular nouns beginning with a consonant.

"The" in Italian - Free Online Italian Lessons

Italy is a fascinating country for population geneticists and historians alike. As Metternich said in 1847 "Italy is only a geographical expression". The peninsula was unified by Piedmont two decades later, but Metternich's remark still largely holds true today.

Genetic origins of the Italian people - Eupedia

Italians are unbridled hedonists and are mainly interested in food, football, sex, alcohol and gambling (especially the men). The main preoccupation of Italians is having a good time and they have a zest for life matched in few other countries.

Italy Guide: The Italians, An introduction to Italian ...

Italian earthquake refugees board ship for the U.S., 1909. Most of this generation of Italian immigrants took their first steps on U.S. soil in a place that has now become a legend–Ellis Island. In the 1880s, they numbered 300,000; in the 1890s, 600,000; in the decade after that, more than two million. By 1920, when immigration began to taper off, more than 4 million Italians had come to the ...

(Italian: "lordship"), in the medieval and Renaissance Italian city-states, a government run by a signore (lord, or despot) that replaced republican institutions either by force or by agreement. It was the characteristic form of government in Italy from the middle of the 13th century until...

Explores the history, culture, and religion of the Italian people, shedding new light on many aspects of Italian life.

The 'fatal charm of Italy' he held Lord Byron – and millions of tourists ever since – in its spell. Yet, beneath 'the brilliant and vivacious surface', what are the realities of Italian life? Few writers have ever painted a portrait of their compatriots as crisp, frank and fearless as Luigi Barzini's. Cutting through the familiar clichés, he instructs us with a cascade of anecdotes and provides a marvellous guided tour through centuries of history. He examines Machiavelli and Mussolini, popes, pilgrims and prostitutes, cliques and conspiracies, Casanova and the crippling power of the Church. Yet alongside the Baroque exuberance and spectacular display, the love of life and the life of love, he also shows us a divided nation, injustice, ignorance, poverty and fear. All this is Italy, a country of dazzling achievement and an uncanny aptitude for getting round problems; both its virtues and its vices are celebrated in this sparkling book.

Italy has seduced generations with its sunshine, landscapes, art treasures and the warmth and vitality of its people, devoted to style, sensuality and the pleasures of life. The reality is less rosy. Italy is as exasperating as it is enchanting. Appalling public services, a rotten political class, the creeping tentacles of the Mafia, the all-forgiving Mother Church and infinitely indulgent ‘mamma’ have long prevented Italians facing up to their collective failings. In ‘The New Italians’, journalist Charles Richards paints a compelling group portrait of the country and people, spanning football to Freemasonry, kickbacks to kidnappings. He concludes that however much things change, the Italians will remain essentially the same, and pull through with their customary ‘brío’.

Approximately 70,000 Italian immigrants arrived in the Port of New Orleans between 1898 and 1929. They brought with them a yearning, a hunger for the things they valued: bread, respect, fortune, security, beauty, justice, and drama. Impoverished conditions in Sicily lead its people to respond to Louisiana planters’s 1/2 pleas for workers, and the transported Sicilians were then able start new lives, rising quickly to become leaders in their communities. This is bread. There were few opportunities for land ownership in Sicily and overcrowding in the urban slums into which immigrants in other parts of the country came. In Louisiana, these immigrants largely settled in rural areas, and before long, Italian Americans became the "food kingpins" of the state. This is respect. Together, they form the basis of this history of interwoven influences, clashes between the old world and the new, and that which makes America the great nation it is: the longing of its citizens to be independent. Using vignettes, family histories, and census as well as other historical records, A. V. Margavio and Jerome J. Salomone examine how Italian culture shaped the lives of the immigrants to Louisiana and, in turn, how experiences in Louisiana modified the Old World values and culture the Italians brought with them. There are hundreds of thousands of Italian Americans living in Louisiana today. A. V. Margavio is a professor of sociology at the University of New Orleans. Jerome J. Salomone is a professor of sociology and scholar in residence at Southeastern Louisiana University.

A guide to understanding the Italians which reveals their cultural curiosities and defining characteristics.

Buon appetito! Everyone loves Italian food. But how did the Italians come to eat so well? The answer lies amid the vibrant beauty of Italy's historic cities. For a thousand years, they have been magnets for everything that makes for great eating: ingredients, talent, money, and power. Italian food is city food. From the bustle of medieval Milan's marketplace to the banqueting halls of Renaissance Ferrara; from street stalls in the putrid alleyways of nineteenth-century Naples to the noisy trattorie of postwar Rome; in rich slices of urban life, historian and master storyteller John Dickie shows how taste, creativity, and civic pride blended with princely arrogance, political violence, and dark intrigue to create the world's favorite cuisine. Delizia! is much more than a history of Italian food. It is a history of Italy told through the flavors and character of its cities. A dynamic chronicle that is full of surprises, Delizia! draws back the curtain on much that was unknown about Italian food and exposes the long-held canards. It interprets the ancient Arabic map that tells of pasta's true origins, and shows that Marco Polo did not introduce spaghetti to the Italians, as is often thought, but did have a big influence on making pasta a part of the American diet. It seeks out the medieval recipes that reveal Italy's long love affair with exotic spices, and introduces the great Renaissance cookery writer who plotted to murder the Pope even as he detailed the aphrodisiac qualities of his ingredients. It moves from the opulent theater of a Renaissance wedding banquet, with its gargantuan ten-course menu comprising hundreds of separate dishes, to the thin soups and bland polentas that would eventually force millions to emigrate to the New World. It shows how early pizzas were disputing and why Mussolini championed risotto. Most important, it explains the origins and growth of the world's greatest urban food culture. With its delectable mix of vivid storytelling, groundbreaking research, and shrewd analysis, Delizia! is as appetizing as the dishes it describes. This passionate account of Italy's civilization of the table will satisfy foodies, history buffs, Italophiles, travelers, students -- and anyone who loves a well-told tale.

This is the first comprehensive book on the Arthurian legend in medieval and Renaissance Italy since Edmund Gardner’s 1930 The Arthurian Legend in Italian Literature. Arthurian material reached all levels of Italian society, from princely courts with their luxury books and frescoed palaces, to the merchant classes and even popular audiences in the piazza, which enjoyed shorter retellings in verse and prose. Unique assemblages emerge on Italian soil, such as the Compilation of Rusticello da Pisa or the innovative Tavola Ritonda, in versions made for both Tuscany and the Po Valley.

"A careful historical account linked to personal narratives."-New York Times Book Review. Eighty-five percent of Italy's Jews survived World War II. Nevertheless, more than six thousand Italian Jews were destroyed in the Holocaust and the lives of countless others were marked by terror. Susan Zuccotti relates hundreds of stories showing the resourcefulness of the Jews, the bravery of those who helped them, and the inhumanity and indifference of others. For Zuccotti, the Holocaust in Italy began when the first "black-shirted thugs" poured a bottle of castor oil down the throat of his victim, or when the dignity of a single human being was violated. She writes: "We might examine again how most Italians behaved from the onset of fascism. . . . Did they do as much as they could? Or should they, and the Jews as well, have recognized the danger sooner, with the first denial of liberty and free speech? We might also ask ourselves whether we, as creatures without prejudice, would act as well as most Italians did under similar pressures. Would we risk our lives for persecuted minorities? Would we be more sensitive to the first assaults upon our liberties, when the only ones really hurt in the beginning are Communists, Socialists, democratic anti-Fascists, and trade unionists? And finally, we might be more aware than we are of the horrors that a racist lunatic fringe can commit, even in the best of societies." Susan Zuccotti teaches modern European history at Columbia University. She is also the author of The Holocaust, the French, and the Jews. The introduction by Furio Colombo was translated into English for this Bison Books edition. The author of God in America: Religion and Politics in theUnited States, Colombo is professor of Italian Studies at Columbia.

Walk down the altar or dieIf it were up to me, the choice would be easyDieBut I have to live. I won't let my son be raised by the devil that killed his father.Enzio Lanza owns my dead husband's life.
