Through the miracle of science and the grace of egg donation, childless families are having their dreams fulfilled and being blessed with a child. These children will begin a life journey with their parents that will include, someday, the realization of their beginnings. This is the story about a duck without any eggs, and a duck who graciously shared her eggs, and the family that evolved from that gift. This book will begin to plant the seeds of knowledge and understanding about egg donation in a very simple concept for infants and toddlers conceived through egg donation, without using terms typically used in early sex education. My hope is for you to read this book to your child often and that it will help prepare your child as they grow for more advanced stories about egg donation and family infertility issues. For those who are egg donors, this book may also provide a useful reference for validation of your unselfish graceful gift. I personally thank you.
