Alberto Arroyo, the "Mayor of Central Park," died last week at the age of 94. His title was unofficial. It came after decades of being a Central Park fixture. In recent years Arroyo could be found in all but the worst weather, sitting on a bench at the South Gate House by the running track at New York's Central Park reservoir.

Central Park is perhaps the most well-trod and familiar green space in the county. It is both a refuge from the city and Manhattan's very heart; a respite from the urban grind and a hive of activity all its own. 843 carefully planned acres allow some 37 million visitors each year to come and get lost in a sense of nature. Unsurprisingly, the park also inspires a wealth of great writing, and here Andrew Blauner collects some of the finest fiction and nonfiction-- 20 pieces in all, with classics sprinkled among 13 new ones commissioned from great New York writers. Bill Buford spends a wild night in the park; Jonathan Safran Foer envisions it as a tiny, transplanted piece of a mythical Sixth Borough; and Marie Winn answers definitively Holden Caulfield's question of where the ducks go when the park's ponds freeze over. There are bird sightings and fish sightings; Jackie Kennedy and James Brown sightings; and pieces by Colson Whitehead, Paul Auster, and Francine Prose. This vibrant collection presents Central Park, in all its many-faceted glory, a 51-block swath of special magic.

The story of how one woman's long love affair with New York's Central Park led her to organize its rescue from a state of serious decline, returning it to the beautiful place of recreational opportunity and spiritual sustenance that it is today. Elizabeth Barlow Rogers opens with a quick survey of her early life--a middle-class upbringing in Texas; college at Wellesley, marriage, a master's degree in city planning at Yale. And then her move to New York, where she starts a family and, when she finds being a mother and a housewife is not enough, pours herself into the protection and enhancement of the city's green spaces. Interwoven into her own story is a comprehensive history of Central Park: its design and construction as a scenic masterpiece; the alterations of each succeeding era; the addition of numerous facilities for sports and play; and finally, the "anything goes" phase of the 1960s and 70s, which was often fun but nearly destroyed the park. The two narratives continue to entwine as she finds a job in the administration of Central Park, founds the Central Park Conservancy, and transforms both the park and herself--a transformation that has led to the writing of her many books, to travels that have taken her to parks and gardens around the world, and to solidifying the prestige of one of New York's most conspicuous landmarks.

A lively, immersive history by an award-winning urbanist of New York City's transformation, and the lessons it offers for the city's future. Dangerous, filthy, and falling apart, garbage piled on its streets and entire neighborhoods reduced to rubble; New York's terrifying, if liberating, state of nature in 1978 also made it the capital of American culture. Over the next thirty-plus years, though, it became a different place—kinder and meaner, richer and poorer, more like America and less like what it had always been. New York, New York, New York, Thomas Dyja's sweeping account of this metamorphosis, shows it wasn't the work of a single policy, mastermind, or economic theory, nor was it a morality tale of gentrification or crime. Instead, three New Yorks evolved in turn. After brutal retrenchment came the dazzling Koch Renaissance and the Dinkins years that left the city's liberal traditions battered but laid the foundation for the safe streets and dotcom excess of Giuliani's Reformation in the '90s. Then the planes hit on 9/11. The shaky city handed itself over to Bloomberg who merged City Hall into his personal empire, launching its Reimagination. From Hip Hop crews to Wall Street bankers, D.V. to Jay-Z, Dyja weaves New Yorkers famous, infamous, and unknown—Yuppies, hipsters, tech nerds, and artists; community organizers and the immigrants who made this a truly global place—into a narrative of a city creating ways of life that would ultimately change cities everywhere. With great success, though, came

grave mistakes. The urbanism that reclaimed public space became a means of control, the police who made streets safe became an occupying army, technology went from a means to the end. Now, as anxiety fills New Yorker's hearts and empties its public spaces, it's clear that what brought the city back—proximity, density, and human exchange—are what sent Covid-19 burning through its streets, and the price of order has come due. A fourth evolution is happening and we must understand that the greatest challenge ahead is the one New York failed in the first three: The cures must not be worse than the disease. Exhaustively researched, passionately told, New York, New York, New York is a colorful, inspiring guide to not just rebuilding but reimagining a great city.

Designed by Frederick Law Olmstead and Calvert Vaux, America's first and largest urban landscaped park features meandering paths and lush vegetation. The amazing story of the park's creation and evolution is revealed in more than 100 vintage photographs dating back to the mid-1800s, along with fascinating details on such landmarks as Belvedere Castle, the Reservoir and the Ramble.

Drawing on the unparalleled collection of original designs for Central Park in the New York City Municipal Archives, Cynthia S. Brenwall tells the story of the creation of New York's great public park, from its conception to its completion. This treasure trove of material ranges from the original winning competition entry; to meticulously detailed maps; to plans and elevations of buildings, some built, some unbuilt; to elegant designs for all kinds of fixtures needed in a world of gaslight and horses; to intricate engineering drawings of infrastructure elements. Much of it has never been published before. A virtual time machine that takes the reader on a journey through the park as it was originally envisioned, The Central Park is both a magnificent art book and a message from the past about what brilliant urban planning can do for a great city.

One of the most original, dazzling, and critically acclaimed debut novels this year. In this debut novel, hailed by Stephen King as "terrifying, touching, and wildly funny," the stories of two strangers, Eugene Brentani and Mr. Schmitz, interweave. What unfolds is a bold reinvention of storytelling in which Eugene, a devotee of the reclusive and monstrous author, Constance Eakins, and Mr. Schmitz, who has been receiving ominous letters from an old friend, embark from New York for Italy, where the line between imagination and reality begins to blur and stories take on a life of their own.

Delineate the politicians, business people, artists, immigrant laborers, and city dwellers who are the key players in the tale. In tracing the park's history, the writers also give us the history of New York. They explain how squabbles over politics, taxes, and real estate development shaped the park and describe the acrimonious debates over what a public park should look like, what facilities it should offer, and how it should accommodate the often incompatible.

A timeless, "triumphant" (Entertainment Weekly) story of healing and recovery from the victim of a crime that shocked the nation: the Central Park Jogger. Shortly after 9:00 p.m. on April 19, 1989, a young woman jogs alone near 102nd Street in New York City's Central Park. She is attacked, raped, savagely beaten, and left for dead. Hours later she arrives at the emergency room—comatose—she has lost so much blood that her doctors believe it's a miracle she's still alive. Meet Trisha Meili, the Central Park Jogger. I Am the Central Park Jogger recounts the mesmerizing, inspiring, often wrenching story of human strength and transcendent recovery. Called "Hero of the Month" by Glamour
