A breathtaking tale of mystery, buried secrets and romance, set in nineteenth century frontier Canada - for fans of THE SNOW CHILD and A PLACE CALLED WINTER.

1867. Winter has just tightened its grip on Dove River, an isolated settlement in Canada's Northern Territory, when a man is brutally murdered. A local woman, Mrs. Ross, stumbles upon the crime scene and sees tracks leading from the dead man's cabin north

10 YEAR ANNIVERSARY EDITION - FEATURES READING GROUP QUESTIONS AND NEW MATERIAL. FROM STEF'S UPCOMING EPIC NOVEL, UNDER A POLE STAR. COSTA AWARD WINNER and WORLDWIDE BESTSELLER. A breathtaking tale of mystery, buried secrets and romance, set in nineteenth century frontier Canada - for fans of THE SNOW CHILD and A PLACE CALLED WINTER. 'Unquestionably atmospheric, evocative and rewarding' Independent on Sunday 'A tense and delicately written thriller' Observer Canada, 1867. A young murder suspect flees across the snowy wilderness. Tracking him is what passes for the law in this frontier land: trappers, sheriffs, traders and the suspect's own mother, desperate to clear his name. As the party pushes further from civilisation, hidden purposes and old obsessions are revealed. One is seeking long-lost daughters; another a fortune in stolen furs; yet another is chasing rumours of a lost Native American culture. But where survival depends on cooperation, their fragile truce cannot afford to be broken, nor their overriding purpose - to find justice for a murdered man - forgotten. The Tenderness of Wolves is a must-read historical epic, weaving adventure, suspense and humour into an exhilarating thriller, a panoramic romance and ultimately, one of the books of the last ten years.

"After killing the red-haired man, I took myself off to Quinn's for an oyster supper." So begins an extraordinary story of betrayal and treachery, of delusion and deceit narrated by Edward Glyver. Glyver may be a bibliophile, but he is no bookworm. Employed "in a private capacity" by one of Victorian London's top lawyers, he knows his Macrobius from his First Folio, but he has the street-smarts and ruthlessness of a Philip Marlowe. And just as it is with many a contemporary detective, one can't always be sure whether Glyver is acting on the side of right or wrong. As the novel begins, Glyver silently stabs a stranger from behind, killing him apparently at random. But though he has committed a callous and brutal crime, Glyver soon reveals himself to be a sympathetic and seductively charming narrator. In fact, Edward Glyver keeps the reader spellbound for 600 riveting pages full of betrayal, twists, lies, and obsession. Glyver has an unforgettable story to tell. Raised in straitened circumstances by his novelist mother, he attended Eton thanks to the munificence of a mysterious benefactor. After his mother's death, Glyver is not sure what path to take in life. Should he explore the new art of photography, take a job at the British Museum, continue his travels in Europe with his friend Le Grice? But then, going through his mother's papers, he discovers something that seems unbelievable: the woman who raised him was not his mother at all. He is actually the son of Lord Tansor, one of the richest and most powerful men in England. Naturally, Glyver sets out to prove his case. But he lacks evidence, and while trying to find it under the alias "Edward Glaphorn," he discovers that one person stands between him and his birthright: his old schoolmate and rival Phoebus Rainsford Daunt, a popular poet (and secret criminal) whom Lord Tansor has taken a decidedly paternal interest in after the death of his only son. Glyver's mission to regain his patrimony takes him from the heights of society to its lowest depths, from brothels and opium dens to Cambridge colleges and the idylls of Evenwood, the Tansor family's ancestral home. Glyver is tough and resourceful, but Daunt always seems to be a step ahead, at least until Glyver meets the beguilingly beautiful Emily Carteret, daughter of Lord Tansor's secretary. But nothing is as it seems in this accomplished, suspenseful novel. Glyver's employer Tredgold warns him to trust no one: Is his enigmatic neighbour Fordyce Jukes spying on him? Is the brutal murderer Josiah Pluckthorn on his trail? And is Glyver himself, driven half-mad by the desire for revenge, telling us the whole truth in his candid, but very artful, "confession"? A global phenomenon, The Meaning of Night is an addictive, darkly funny, and completely captivating novel. Meticulously researched and utterly gripping, it draws its readers relentlessly forward until its compelling narrator's final revelations.

When Samuel Godwin, a young and naive art tutor, accepts a job with the Farrow family at their majestic home, little does he expect to come across a place containing such secrets and lies. His two tutees are as different as can be--younger sister Marianne, full of flightiness and nervous imagination, and Juliana, sensible and controlled. Helped by their governess, Charlotte Agnew, Samuel begins to uncover slowly why Marianne is so emotionally fragile, and in doing so uncovers a web of intrigue. But his discoveries lead to revenge and betrayal--and lives all around are turned upside down. Linda Newbery has written a novel in diary style, combining different voices and a different century with her usual brilliance and ease. These are characters full of the same passions as our own today, while living in an unfamiliar and fascinating time.

'A modern work of genius' Spectator Winner of the Costa/Whitbread Book of the Year Award 1993 Forced into slavery as a child, Jonathan Carrick escapes to a new life but within him lies the need for revenge against George Stokes, the son of his former master. Mallory Carrick, confined to a wheelchair, seeks to find out the truth about her grandfather's history. Haunting, elegant and passionate, Theory of War is a novel about how the past lives on through following generations. It follows one woman's journey to discover what her grandfather might have experienced and how his suffering still haunts his descendants.

Boarding an ocean liner with her boyfriend Derek, Beth comes face-to-face with her past in the form of Arthur, an ex-lover, which conjures up the memories of their unsavory past, acting as spiritual mediums to fleece the innocent out of their hard-earned money.

Follows the adventures of detective Dave Robicheaux, who struggles with alcoholism and rage while fighting to protect lives in Katrina-devastated New Orleans.

"Patrick Gale has written a book which manages to be both tender and epic, and carries the unmistakable tang of a true story. I loved it." -- Jojo Moyes A privileged elder son, and stammering shy, Harry Cane has followed convention at every step. Even the beginnings of an illicit, dangerous affair do little to shake the foundations of his muted existence - until the shock of discovery and the threat of arrest cost him everything. Forced to abandon his wife and child, Harry signs up for emigration to the newly colonised Canadian prairies. Remote and unforgiving, his allotted homestead in a place called Winter is a world away from the golden suburbs of turn-of-the-century Edwardian England. And yet it is here, isolated in a seemingly harsh landscape, under the threat of war, madness and an evil man of undeniable magnetism that the fight for survival will reveal in Harry an inner strength and capacity for love beyond anything he has ever known before. In this exquisite journey of self-discovery, loosely based on a real life family mystery, Patrick Gale has created an epic, intimate human drama, both brutal and breathtaking. This is a novel of secrets, sexuality and, ultimately, of great love.

A rigorous, skeptical, deeply reported look at the new science behind the mind's surprising ability to heal the body. Have you ever felt a surge of adrenaline after narrowly avoiding an accident? Salivated at the sight (or thought) of a sour lemon? Felt turned on just from hearing your partner's voice? If so, then you've experienced how dramatically the workings of your mind can affect your body. Yet while we accept that stress or anxiety can damage our health, the idea of "healing thoughts" was long ago hijacked by New Age gurus and spiritual healers. Recently, however, serious scientists from a range of fields have been uncovering evidence that our thoughts, emotions and beliefs can ease pain, heal wounds, fend off infection and heart disease and even slow the progression of AIDS and some cancers. In Cure, award-winning science writer Jo Marchant travels the world to meet the physicians, patients and researchers on the cutting edge of this new world of medicine. We learn how meditation protects against depression and dementia, how social connections increase life expectancy and how patients who feel cared for recover from surgery faster. We meet Iraq war veterans who are using a virtual arctic world to treat their burns and children whose ADHD is kept under control with half the normal dose of medication. We watch as a transplant patient uses the smell of lavender to calm his hostile immune system and an Olympic runner shaves vital seconds off his time through mind-power alone. Drawing on the very latest research, Marchant explores the vast potential of the mind's ability to heal, lays out its limitations and explains how we can make use of the findings in our own lives. With clarity and compassion, Cure points the way towards a system of medicine that treats us not simply as bodies but as human beings. A New York Times Bestseller Finalist for the Royal Society Insight Investment Science Book Prize Longlisted for the Wellcome Book Prize
