*Water, sanitation and hygiene (WASH) sector
strategic ...*

Managing water resources involves a dialectic between integration (Dublin Principle #1) and subsidiarity (Dublin Principle #2). Within the World Bank, business strategies for specific water-using sectors (such as water and sanitation, irrigation and drainage and hydropower) are, in accordance with the subsidiarity principle, determined primarily as part of the strategies for these respective sectors.

Water Resources Sector Strategy

File Type PDF Water Resources Sector Strategy Strategic Directions For World Bank Engagement

As mentioned earlier, the principal objective of the water resources strategy is to translate the national water resources management policy into action. More specifically, this strategy sets the road map as how to make meaningful contributions towards:

- Improving the living standard and general socio-economic well being of the Ethiopian
